

Since our establishment in 2002, Tier 3 Technology Solutions has long been the go-to resource in swift and professional managed services for small and medium sized businesses in Fort Wayne, Indiana. So we are very excited to present our new website! We'd also like to announce the new features we've made available through our new site. Our existing clients can now easily log in and submit support tickets and manage their existing tickets! Tier 3 Technology Solutions strives not only to offer the best services, but to also operate as a resource centre for easy consultation with both current and potential clients. Please visit our Blog and News pages for regular updates and feel free to add to the discussion with any comments or feedback.
